

**POWERBOX Series
6 & 8 CHANNEL STEREO AMPLIFIERS
CLASS D AMPLIFICATION**

With multiple inputs such as Optical digital and Bluetooth, the POWERBOX65.4MD-SP turns any factory headunit into a Bluetooth receiver allowing you to wirelessly stream your music while on the move.

The smartphone app allows full control of all settings such as gain, crossover, time alignment, 31 band parametric EQ and many more functions. The inbuilt mixer allows the input signal to be summed and distributed to any desired channels, perfect for a multi speaker setup where only a stereo input exists. The future is bright, the future is digital.

Model	POWERBOX80.6DSP-V3	POWERBOX80.8DSP-V3
Configuration	6 channel	8 channel
Dimensions (HxWxD)	1.9" x 15.4" x 5.3" (47x 230 x 134mm)	1.9" x 15.4" x 5.3" (47x 230 x 134mm)
RMS @ 4Ω Stereo	6 x 80 Watts	8 x 80watts
RMS @ 2Ω Stereo	N/A	N/A
RMS @ 4Ω Stereo	N/A	N/A
Maximum Power	1440 Watts	1440 Watts
Frequency Response	20Hz - 20kHz	20Hz - 20kHz
Crossover Type	HP / Full	HP / Full
Crossover Range	50Hz	50Hz
Topology	Mini Class D	Mini Class D

COMPACT FOOTPRINT - Our new dsp amps feature mini class D technology to pack a big punch in comparison to their size due to smaller internals. They can be easily hidden out of the way for a cleaner install.

BEST FEATURES - Packed with various inputs and outputs such as an optical input and unlimited tuning potential from the DSP APP allowing users to get the absolute most from this amplifier.

DSP CONTROL - DSP APP controls various functions of the amplifier via bluetooth allowing full EQ Control.

BEST VERSATILITY - The compact size allows for the amplifier to be easily hidden, the auto sense means no remote wire is needed making for easier integration with OEM sound systems.

DSP

Brand new DSP app for total system control which is available on both Android and IOS. EQ, Time alignment, Crossovers, level adjustment and much more.

CLASS D

Class D technology allows for ultra efficiency and high power output, whilst keeping a small footprint for the amplifier.

RCA OUTPUT

Built in RCA Outputs with full DSP control from the amplifier, allowing non DSP amplifiers to have DSP Control.

MICRO

New micro class D technology allows for the amp to be very compact, enabling for flexible mounting within the vehicle.

High Level Input

When installing into an OEM head-unit our DSP amps have a high level input, meaning the amp can be installed easily without an aftermarket head-unit.

AUTO SENSE

For easy integration we have included auto-sense turn on, this means for OEM installations there is no need to find a remote turn on signal when installing into any vehicle.
